● Standard ○ Optional

- SIP to ISO 5353.
- Dimensions at mid suspension stroke, middle height adjustment and at mid sliderail adjustment.
- Indicative dimensions
- Air 525P shown

The great value of the KAB pod seats are that the joysticks move with the driver and the suspension of the seat. This creates a better ergonomic working environment and reduces stretching injuries.

These models are just part of the extensive 500 series range. Other high back, low back and narrower seats are also available including the new 55/E-1P and 52/E-1P.

For further details contact your local KAB office.
